

BUSINESS MAN IS ENTHUSED

Memphis Manufacturer Feared He Would Be Lifetime Invalid.

"Tanlac certainly put me on my feet again and I gained ten pounds by taking it," said E. W. Beale, a well-known manufacturer who operates a cereal plant at Paris, Tenn., and lives at 857 Lamar boulevard, Memphis, Tenn.

"As a result of a severe spell of typhoid pneumonia," he continued, "I had about lost the entire use of my legs from my knees down. For two months I was confined to my bed and even after I was able to be up again I suffered so I couldn't rest. My legs pained me terribly and I couldn't walk. It seemed that no kind of medicine would help me regain my strength and I was afraid I was doomed to be a lifetime invalid."

"But since taking Tanlac I can go anywhere I want instead of having to sit helpless in a chair. My appetite and digestion are fine. I have no discomfort at all and attribute my recovery to nothing but the Tanlac I have taken."

Tanlac is sold in Memphis exclusively by Weiss' Pharmacy and Warnock Drug Co.

PNEUMONIA LEFT HER IN BAD CONDITION

Lungs Seemed To Be Filled With Pus, Says Mrs. Jackson.

NOW DOES OWN WASHING

If It Hadn't Been For Lung-Vita Would Not Be Living, She Thinks.

Lung-Vita Now Called L-V

"While I am 68 years old I am doing my own washing though I had pneumonia and was carried to the hospital," says Mrs. Mary Jackson, who lives at 613 Third Avenue North, Nashville, Tenn.

"I was left in a bad condition by the attack of pneumonia and my lungs seemed stopped up with pus. I heard of Lung-Vita and decided to try it. After taking three bottles I began to get much better and my lungs were cleared of the phlegm. If it hadn't been for Lung-Vita I would not be living today. I think. As it is I am as lively as can be and do all my own washing and housework."

The medicine taken by Mrs. Jackson is now called L-V. The only change though, is the name, for the medicine is just exactly as it has always been. You can accept either Lung-Vita or L-V from your druggist and know that you are getting the same medicine.

ANOTHER ELAINE RIOTER ARRESTED IN ARKANSAS

PINE BLUFF, Ark., Nov. 17. (Sp.)—Will Miller, a negro wanted in Phillips county on a charge of murder in connection with the rioting at Elaine, was arrested about midnight Saturday by Sheriff C. M. Nichol and a small posse near Tamo. Miller admits that he was a member of the "Progressive Farmers and Household Union of America," the negro business league, and participated in the riots. He was brought to Pine Bluff and is being held for Phillips county officers to come for him. Sheriff Nichol recently received word from the sheriff of Phillips county to be on the lookout for Miller, who might take refuge at the home of his wife's brother, Peter King, and he was found there.

It is not believed that King is in any way implicated in the Elaine affair. Miller at first attempted to get away but soon submitted to arrest without resistance. Miller claims that R. L. Hill was the "main man" in the organization of the lodge and in inciting the rioting.

He said that Hill raised \$100 by promising to have Gov. Brought come over and talk to the members, but instead got some white lawyer to come over. His name was Brunton or "sumpin like," that Miller says. The lawyer made a speech but did not use violence.

SWISS PEASANTS IN STRONG UNION

PARIS, Nov. 17.—Louis Farges, minister plenipotentiary of France, who has for many years been French consul in Switzerland, has lately published in the Revue Hebdomadaire a study on a peculiar point of the internal situation of Switzerland, which offers a certain analogy with that of France.

A few years ago the creation of the Societe Suisse du Commerce et de l'Industrie, the Union Suisse des Arts et Metiers, and the Union Suisse des Peasants, the Swiss agricultural secretariats.

On the 7th of June, 1917, 281 delegates, representing about 300,000 peasants, met together in Bern and founded the Swiss League of Peasants. The founders came from all the various cantons. So well did they realize the importance of their task that after a discussion of the statutes which they had adopted, the whole assembly rose to its feet and in the midst of intense emotion that it gave its final assent.

The Union Suisse des Paysans was founded in 1877. The union had 74,229 members in 1917. This number had increased to 214,000, and today it has reached the figure of 250,000.

When, in 1918, the crisis of the high cost of living, which was made the most of by the partisans of Bolshevism, provoked the manifesto of the committee of Olten, the federal chambers which were convoked gave to the executive the necessary authority by passing a resolution that the general strike must be repressed, and that the complete capitulation of the strikers must be obtained even if it necessitated the employment of the strongest measures.

Backed by the representatives of the nation, the federal council summoned the Olten committee to stop the strike, and this committee was obliged to submit. Through the calmness and firmness of the federal council, supported by the resolution of the chambers, it was thus possible to put an end to a revolutionary attempt without employing force.

But the federal council could never have taken these measures if it had not superior power of the union is vested in the assembly of delegates, the proportion of one delegate for 500 members, an assembly, the authority of which is exercised by three organs: The directing committee, the administration, and the agricultural secretariat, this last being the mainspring of the whole organization.

To further its efforts and make known its ideas, the union has an organ, Le Paysan Suisse, which has a circulation of about 125,000 copies a month, 100,000 in German and 25,000 in French; and, secondly, it possesses a particular institution, known as "men of confidence," which assures it militant and constant action.

The agricultural associations designate one man for each commune, and there are about 4,000 of these men who do not pay subscriptions, but who have the same rights as the subscribers, and whose mission it is to make known and render effective the action of the union. Through them the Paysan Suisse circulates from hand to hand.

Information on new agricultural processes is spread, and distrust is dissipated.

It shows great wisdom and cleverness on the part of the Union Suisse des Paysans to have known how to capture and utilize these "men of confidence" to its own profit through the influence which these chosen citizens can not fail to exert over their friends and acquaintances.
